

PennHIP Report

Referring Veterinarian: Dr Jennifer Ewoldt
 Email: scahvets@netins.net

Clinic Name: Scott County Animal Hospital
 Clinic Address: 115 South 16th Ave
 Eldridge, IA 52748
 Phone: (563) 285-8624
 Fax: (563) 285-6798

Patient Information

Client: Sherrard, Sherrard
 Patient Name: Indy
 Reg. Name: Gochee's Call Me Mr.
 Independence
 PennHIP Num: 128039
 Species: Canine
 Date of Birth: 26 Jun 2007
 Sex: Male
 Date of Study: 11 Mar 2019
 Date of Report: 18 Mar 2019

Tattoo Num:
 Patient ID: 9755
 Registration Num: SR99707801
 Microchip Num: 956000005619609
 Breed: LABRADOR RETRIEVER
 Age: 141 months
 Weight: 61 lbs/27.7 kgs
 Date Submitted: 14 Mar 2019

Findings

Distraction Index (DI): Right DI = 0.28, Left DI = 0.25.
 Osteoarthritis (OA): **No radiographic evidence of OA for either hip.**
 Cavitation/Other Findings: No cavitation present.

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.28.
 OA Risk Category: The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.
 Distraction Index Chart:

BREED STATISTICS: This interpretation is based on a cross-section of 33106 canine patients of the LABRADOR RETRIEVER breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.27 - 0.75) for the breed. The breed average DI is 0.46 (solid square). The patient DI is the solid circle (0.28).

SUMMARY: The degree of laxity (DI = 0.28) falls within the central 90% range of DIs for the breed. This amount of hip laxity places hip at a minimal risk to develop hip OA. **No radiographic evidence of OA for either hip.**

INTERPRETATION AND RECOMMENDATIONS: No OA/Minimal Risk: Unlikely to show radiographic evidence of hip OA; even more unlikely to develop clinical signs of hip dysplasia. **Recommendations:** Normal to strenuous activity is permitted. Keep lean: try to maintain BCS at 5/9 for a longer and healthier life.
Breeding Recommendations: Please Consult the PennHIP Manual.

COMMENTS:

Thank you for following policy and sending at least 2 Distraction views, as confirmation, when the hips appear tight (less than 0.30 DI).
